The Nigeria Muslim Forum, United Kingdom condemns the ethno-religious genocide in Jos, the capital of Plateau State, Nigeria, and calls for the immediate prosecution of culprits.

“What happened in Jos is a bizarre, barbaric, uncivilised and most condemnable act of genocide against the inhabitants of the city of Jos who have been living together peacefully a few decades ago. What is even more bizarre is the attitude of the Plateau State Government which seems to take side in the crises, and refusing to cooperate with the federal government as testified by the officials of the National Emergency Management Agency (NEMA). It is also surprising that the leadership of the Muslim community remained aloof and continued to portray a lackadaisical attitude to the plight of the people when the genocide was going on” said the General Secretary, Adam Abubakar Gumel.

The Nigeria Muslim Forum calls on the federal government to take necessary actions by bringing the perpetrators of this crime to book with immediate effect.
