Nigeria Muslim Forum condemns the attempt to blow-up US airline

The Nigeria Muslim Forum United Kingdom condemns the use of violence against innocent civilians in whatever form. The Forum made this statement after a Nigerian allegedly attempted to blow up a US airline to Detroit, Michigan.

“Islam does not recognise the use of violence against innocent civilians, and considers human life as sacred. There are verses in the Qur’an which states clearly that whoever kills a single soul is like killing the entire humanity, and whoever saves a single life is like saving the entire humanity. Therefore there is no excuse for anybody to attempt destroying the lives of innocent individuals”. Said Adam Abubakar Gumel, the Secretary General.

NMF-UK therefore calls on all Nigerian Muslims and the entire members of the community to be law abiding, and exhibit good manners wherever they are.
